## · Figari: The Refined Slate Revolution ·

Figari is a fresh take on slate stone—bold, modern, and uniquely versatile. With its deep black base, softened by gentle edges and punctuated by colorful accents, it breaks away from the typical raw and rugged slates we've come to expect. Rather than large, dominant areas, Figari features a balanced and homogeneous composition, offering a more refined and commercial-friendly aesthetic. Its structure allows for free cutting, making it adaptable to a wide range of applications without losing its visual harmony. Is a new way to think of a slate: sleek, structured, and contemporary, yet still rooted in the rich character of natural stone.
